F. No. 104-45/DTU/Acad.PG/M.Tech Circular/2021/ 5121-27

Dated: 16/06/2025

**Notice**

The approval of the Competent Authority is hereby conveyed for M.Tech final year students to undertake 11/12-month internships at various companies.

In this regard, it is to informed you that the students who are selected for such internships through the Department of Training and Placement are permitted to opt for suitable MOOCs, duly approved by the Board of Studies of the respective departments, in place of their remaining courses, including core courses (if any). This relaxation is applicable only to those students selected for the year long internship program for the academic year 2025-26 only.

Furthermore, it is advised that from the next academic year onwards, departments shall offer second-year courses during the first year of the M.Tech program. This will enable students to complete the required credits in advance, thereby making them eligible for a one-year internship in the second year.

Therefore, Departments are also requested to inform students about the M.Tech Internship Program during the orientation itself, so that students may register for third-semester core courses in the first year, if necessary.

This issues with the approval of the Competent Authority.
